

ITINERARIO LIBERTY

Guido Chini

He was born in Borgo San Lorenzo in 1872. Chino's brother, and an accountant by profession, he joined the Ceramic Arts soon after its foundation as administrator.

He also maintained this role in the San Lorenzo Furnaces, despite the fact that he carried out his work as an clerical worker in the State Railways in Rome.

He was often the arbitrator in the contrasts between Chino and Galileo, managing to bring back the situation to peace. He died in 1950.
